Any persons interested in the subject of the Committee's inquiries who have not already been asked to appear before it, are requested to intimate such desire to the District authorities of that one of the above districts at the head-quarters of which they wish to meet the Committee.

The Committee will also be very pleased to receive any written communications on the subject of their inquiries. All such communications should be addressed either to the Deputy Commissioner of one of the districts which the Committee will visit with a request that it be laid before the Committee, or also to the President, c/o Post Master, Lahore.

The following is a list of the questions issued by the Committee:—

Weights and Measures Committee.

N. B.—(1) Please state your name, caste, address, profession, occupation or appointment and if representative of a body the name and address of the body represented.

(2) Please reply to each question on a separate sheet of paper.

(3) In answering the questions, please give, if practicable, the equivalents of the Indian weights and measures to which you refer in terms of any of those mentioned in the following tables:—

Weights.

180 grains is equal to	... ...	1 tola.
80 tolas "	... ...	1 seer.
40 seers "	... ...	1 maund.

(*Note.*—One rupee weighs one tola.)

Lineal measures.

12 inches is equal to	... ...	1 foot.
3 feet "	... ...	1 yard.
100 links = 22 yards is equal to	... ...	1 chain.
220 yards is equal to	... ...	1 furlong.
8 furlongs "	... ...	1 mile.

Area.

Any of the above lineal measures squared, or 10 square chains (4,840 square yards) is equal to ... 1 acre.

Cubical capacity.

The approximate weight of water contained by the measure when full expressed in terms of any of the above weights.

1. What weights are in most general use in the neighbourhood with which you are acquainted?

2. What other weights are in use?

3. (*a*) Are different systems of weights (whether called by the same or different names) used in dealing with different commodities? (*E.g.*, the maund for weighing firewood is in some places very different from that for weighing grain.) Give full details of these weights and the commodities for which each is used.

(*b*) What are the reasons for their variations?

(*c*) What objection would there be to the adoption of a standard weight in these transactions?

4. Are different weights of the same name ever used in the same town or tract when purchasing and when selling the same articles? Give examples.

5. What measures of capacity are in use in the neighbourhood with which you are acquainted? Are they used heaped or struck?

6. How are the measures defined? If as containing some particular weight of some particular article, state weight and article.

7. What commodities are dealt with by these measures and under what circumstances, *e.g.*, are they only used in measuring out grain for sowing; or only by cultivators when selling their produce; or by villagers in making payments to village servants for customary services, etc.

8. Are different measures of the same name ever used in the same town or tract for buying and for selling the same article? Give examples.

9. Are the same commodities ever sold at the same place both by weight and by measure? Do you consider that this should be prohibited? If so, why?

10. Under section 3 of the Indian Weights and Measures of Capacity Act, 1871 (Act XXXI of 1871), the unit of weight is called a seer, but a seer is also a measure of capacity in many places—

(*a*) Does any confusion arise owing to the use of the same term to denote both a weight and a measure of capacity?

(*b*) Do you consider it preferable to confine the use of a term to designate either a weight or a measure of capacity but not both?

11. What measures of length are in use in the neighbourhood with which you are acquainted?

12. Are special measures of length used in dealing with special commodities? If so, give full details.

13. What measures of area are in use in the neighbourhood with which you are acquainted?

14. Does the measure of area of land ever vary according to the crop sown? If so, give full details.

15. Suggestions have been put forward that the United Kingdom should adopt the metrical system or some other uniform system of weights and measures based on the decimal or duodecimal system of notation—

(*a*) Do you consider it desirable that the introduction of a uniform system of weights and measures should be postponed until such a system is adopted and enforced in the United Kingdom and that the same system should then be introduced and enforced in India; or

(*b*) Are you in favour of a uniform system of weights and measures being prescribed for all India; or

(*c*) Do you consider that no attempt should be made to enforce the use of a uniform system of weights and measures in India? Please give full reasons for your opinion.

N. B.—Even though you are not in favour of a uniform system being prescribed, your replies to the following questions are requested on the assumption that a uniform system of weights and measures will be introduced.

16. Do you consider that weights and measures in force in other countries should be taken into consideration in determining the uniform system to be adopted for India?

17. There are two chief systems in use in the civilised world. The British is in use in the British territories and United States of America and the Metric system is used in most other countries except Russia. If a uniform system of weights and measures is to be introduced at once throughout India, should a system connected with either the British or the Metric system be adopted for India? If so, what system do you suggest? Please give full reasons for your suggestion.

18. If, however, you consider that a separate uniform system of weights and measures should be prescribed for India, what would you suggest?

19. (*a*) Would it be advisable to prescribe in addition to the universal system for all India and Burma local standards corresponding as nearly as possible to some weight or measure in general use over some considerable area? (*e.g.*, as the viss of 140 tolas for Burma). Name any such local standard you would consider it advisable to prescribe, giving reasons for your recommendations and the area over which such local standard should be permitted.

(*b*) Would it be advisable to allow some special weights to be used in special trades? If so, state what you would suggest with reasons.

(*c*) Should this be done temporarily or permanently?

20. What measures should be adopted to introduce and enforce the use of an authorised uniform system of weights and measures throughout India? The following suggestions have been made; please criticise and add to them:—

(*a*) The authorised weights and measures should be adopted in all transactions by Government, Railways and bodies controlled by Government.

(*b*) Specimens of the authorised weights and measures in general use should be supplied by Government to all Revenue offices in districts, all police stations, all village headmen and all recognized elementary schools.

(*c*) Tables of the authorized weights and measures should be published as standing matter in the District Gazettes (village sheet) in the Vernaculars as well as in English; copies of the tables should also be kept by the village headman.

(*d*) The use of the authorized weights and measures should be taught in all recognized elementary schools and the use of no other weights and measures should be taught in such schools.

(*e*) The Government should stamp only authorized weights and measures.

(*f*) The Government should provide due facilities for stamping and verifying authorized weights and measures throughout the country. No fee should be charged for stamping authorized weights and measures for a certain period.

(*g*) The Government should replace free of cost by corresponding authorized weights and measures any weights and measures no longer authorized but stamped by or under the authority of Government before a certain date and still in good order.

(*h*) The Government should alter or make grants for the necessary alterations of weighing machines which are in British India at a certain date and in good order and in use or for sale.

(*i*) Only stamped authorized weights and measures should be used after a certain date in markets under the control of Government or any local authority.

(*j*) The import, manufacture and sale of other weights and measures should be declared illegal.

(*k*) No import duties should be levied for a certain period on authorized weights and measures and weighing machines for weighing authorized weights only.

(*l*) (i) The Government should sell at cost price authorized weights and measures.

Note.—This might discourage private trade in weights and measures.

or (ii) The Government should sell at Revenue offices at reasonable prices (so as to allow a profit to private trade) authorized weights and measures and simple weighing machines adapted for the authorized weights.

(*m*) After a certain date documents should be drawn up only in terms of the authorized weights and measures and civil courts should not recognize any other weights and measures in documents executed after the prescribed date. (An exception should be made in favour of documents relating to external trade with countries in which the authorized weights and measures are not recognised.)

(*n*) Documents drawn up after the prescribed date in terms of unauthorized weights or measures should not be registered in the offices of the Registration Department.

(*o*) The use of any weights and measures except those authorized should be illegal throughout India after a certain date.

Note.—Your views are invited as to the length of the periods mentioned above, if the proposed measures are adopted.

(*p*) It should be presumed that any unauthorized weights or measures found in the possession of a shop-keeper, trader or merchant are intended to be used and that such possession should be illegal.

21. What penalties should be prescribed for failure to adopt the prescribed system? What is your opinion on the suitability or otherwise of the following :—

(*a*) Destruction (without confiscation) of unauthorized measures found in use contrary to law.

(*b*) Confiscation of unauthorized weights and measures found in use contrary to law.

(*c*) A fine on conviction before a Magistrate of using an unauthorized weight or measure contrary to law.

22. What authority should be employed to detect cases of unauthorized weights and measures? What are your views (with reasons) on the advisability and practicability of employing for this purpose—

(*a*) The police.

(*b*) The Revenue staff.

(*c*) In municipalities and towns, the Municipal or Town staff.

(*d*) Some other agency, either paid or unpaid as, *e.g.*, village headmen.

Note.—As regards (*a*), (*b*) and (*c*), please state the lowest grade of officer of each of these classes who should be empowered to detect cases.

23. In your opinion how would the introduction of a uniform system affect (*a*) large traders, (*b*) small traders, (*c*) others generally, especially agriculturists and the poorer classes.

24. Do you use any tables for the conversion of weights or measures? If so, where are copies procurable?

25. The Committee has been appointed to inquire into the whole question of the feasibility of securing the use of uniform weights and measures in India. Have you any further suggestions to make to the Committee?

26. It has been suggested that if the British pound were made the unit of weight it would be advisable to alter the coinage so as to give some direct connection between it and that unit. What is your opinion on this point?

If it were decided to so alter the coinage, which of the following methods would you deem best suited for this end?

(*N. B.*—Save Nos. (*i*), (*ii*) (*a*) and (*ii*) (*b*) the methods are not mutually exclusive).

(*i*) To make the rupee weigh 175 grains instead of 180 as at present, leaving the proportion of silver to alloy unaltered. This would make the rupee weigh exactly 1/40th pound.

(*ii*) To raise the weight of the rupee by the addition of alloy, leaving the amount of silver contained therein unaltered so as to make it weigh either (*a*) 1/36th pound or (*b*) 1/32nd pound: in the latter case the rupee would weigh half an ounce avoirdupois, or very approximately the same as the English half crown.

(*iii*) To reduce the weight of the nickel one-anna piece from 60 grains to $54\frac{11}{16}$ grains (*i. e.*, one-eighth ounce avoirdupois).

(*iv*) To raise the weight of the bronze quarter-anna piece from 75 grains to $109\frac{3}{8}$ grains (one-quarter ounce avoirdupois). It would then weigh only $9\frac{3}{8}$ grains, more than the old copper quarter-anna.

Provided that nothing in this rule shall prevent the immediate disposal of live-stock or other assets subject to speedy or natural decay.

Rules under section 9.

4. In discharging the duty imposed by section 9 of the Act, the Administrator General shall have regard to the following directions namely :—

(1) If no steps have been taken in any Court of competent jurisdiction to obtain probate or letters of administration, within one month of the date on which the Administrator General has had notice of the death, the Administrator General shall proceed to take the necessary steps to obtain administration:

Provided that, when the name and address of the executor or next-of-kin is known to the Administrator General, the Administrator General shall not proceed

(2) Notwithstanding anything in clause (1), the Administrator General may take immediate action under section 9 if in his opinion, such a course is necessary to protect the estate.

Notices under section 26.

5. Short title.

1. These rules may be called the Official Trustee's (Punjab) Rules, 1914.

Definitions.

2. In these rules unless there is anything repugnant in the subject or context :—

Rules under section 7, sub-section (5) of the Act.

3. (1) The Official Trustee shall reject any application for the acceptance of any trust for a religious purpose unless he is satisfied that such trust will not involve him in the performance, supervision or control of any religious rites, ceremonies or duties and shall not accept any such trust without the express sanction of the Government to be obtained in each case :

(2) The Official Trustee may, if he thinks fit, accept a trust which involves the management or carrying on of any business, subject to the following conditions, namely—

DRAFT RULES.

1. (i) These rules may be called the Punjab Motor Vehicle Registration Rules, 1914.

(ii) They shall extend to the whole of the Punjab.

2. Every motor vehicle used on a public highway shall be provided with and carry identification marks in the manner prescribed by these rules.

3. The Inspector-General of Police, Punjab, shall establish and keep a register for the registration of motor vehicles.

The register shall be in the form set out in schedule I to these rules.

4. Application for the registration of a motor vehicle shall be made to the Inspector-General of Police, Lahore, in the form given in schedule II to these rules.

5. On receipt of any such application, the Inspector-General shall assign a separate number to the motor vehicle, and shall register it by making or causing to be made the required entries in the register.

On the registration of the motor vehicle, the Inspector-General of Police shall intimate the number assigned to the motor vehicle to the owner, and shall give the owner a certificate of registration in the form set out in schedule III to these rules.

6. If the ownership of a registered motor vehicle is changed, notice of the change shall be given either by the new or the old owner to the Inspector-General of Police, and an application shall be made either to cancel the registration of the car or to continue the existing registration under the new ownership. 9. When another vehicle is attached to a motor vehicle either in front or behind, the plate required to be fixed on the front or on the back of the motor vehicle, or a duplicate of such plate, shall be fixed on the front or on the back of the vehicle attached, as the case requires, in the same manner as the plate is required to be fixed upon the motor vehicle.

10. Whenever during the period between half an hour after sunset and half an hour before sunrise a motor vehicle is used on a public highway, a lamp shall be kept burning on the vehicle, so contrived as to illuminate, by means of reflection, transparency, or otherwise, and render easily distinguishable every letter or figure on the identification plate fixed on the back of the motor vehicle or of any vehicle attached to the back of the motor vehicle, as the case may be.

Offg. Chief Secretary to Government, Punjab.

GENERAL.

The following circular is published for general information :—

Circular No. 1108 S. (Home—Genl.), dated Simla, 25th June 1914.

From—The Hon'ble Mr. A. B. KETTLEWELL, I.C.S., offg. Chief Secretary to Government, Punjab,

To—All Heads of Departments, Commissioners and Deputy Commissioners and Settlement Officers in the Punjab and Private Secretary to His Honour the Lieutenant-Governor of the Punjab.

THE attention of the Lieutenant-Governor has recently been drawn to a case in which in anticipation of his visit to a certain locality subscriptions for decorating the town were raised from the local notables, zaildars and others, at the instance of the local officials.

The visit in question did not actually occur ; but the sums collected were spent mainly on decorations, to a less extent on gratuities to the chaprasis and servants of officers, and to a very small extent on purchase of "dalis" for officers.

2. There is no objection of course to the decoration within reasonable limits of a town on the visit of high officials, if the residents desire to show their welcome in this way and are willing to meet the cost by subscriptions. But they should make the arrangements themselves, and no official pressure or influence should be used on such occasions. The participation of officials in the collection or disbursement of such funds, even when voluntarily subscribed, is most irregular and is likely to give rise to misconceptions on the part of people who do not discriminate between the public and private aspect of the acts of Government officials. In the case in question the official chiefly concerned has been required to refund the subscriptions collected at his instance and has also been censured.

3. As ragards the expenditure on "dalis," the Lieutenant-Governor desires again to draw attention to rule 2 of the Government Servants' Conduct Rules which prohibits Government servants from accepting, directly or indirectly, any gift, gratuity or reward, and which, while allowing the acceptance of a complimentary present of fruit or flowers or similar articles of trifling value, directs that even such presents should be discouraged. His Honour understands that most officers would be glad to see the practice totally prohibited as a troublesome nuisance and as affording opportunities for the objectionable practices apparent in the present case. He, therefore, desires that in their own interests officers should take steps to limit and discourage the practice as far as possible.

4. The worst feature brought out in the case under consideration is the large gratuities paid to the orderlies and in some cases to the private servants of officers. Though the giving of such gratuities is sometimes represented to be purely voluntary and in accordance with oriental custom, there is reason to believe that it often degenerates into a form of extortion, and acts as a bar to freedom of intercourse between the officers of Government and Indian visitors. His Honour would invite the attention of all officers to Punjab Government circular No. 7, dated 10th November 1911, and impress on them the necessity of making it clear to all concerned that the practice is not only considered objectionable by Government but is severely discouraged by officers themselves.

A. B. KETTLEWELL,

Offg. Chief Secretary to Government, Punjab.

information that the Lieutenant-Governor of the Punjab has been pleased to make the following rules under section 43 (1) of the Co-operative Societies Act, 1912 (II of 1912):—

RULES.

Member's interest.

No member other than a registered society shall hold more than one-fifth of the share capital of a co-operative society, whether the liability be limited or unlimited.

Registration of societies and bye-laws.

2. (a) Every application for the registration of a society shall be submitted to the Registrar in the form prescribed by him, and shall be signed by the applicants, who shall not be less than ten in number.

(b) Together with the application shall be submitted two copies of the bye-laws which the society proposes to adopt, unless the model bye-laws issued by the Registrar are adopted in their entirety, in which case a note to that effect shall be recorded on the application.

(c) When bye-laws other than the model bye laws are adopted the Registrar shall, when he has approved of them, return one copy to the society, stamped with the official seal of the Registrar, at the time when he sends the certificate of registration.

Refusal to register.

3. When the Registrar refuses to register a society or its bye-laws, he shall record in writing his reasons for refusing.

New bye-laws.

4. (a) Subject to the provisions of section 11 of the Act, a society may from time to time make new bye-laws for the conduct of its business, or may alter or abrogate any bye-law already made.

(b) Such new bye-laws or the modification or abrogation of existing bye-laws shall be made by the majority of members at a general meeting, at which not less than two-thirds of the members of the society are present, and shall, if approved by the Registrar, be registered by him.

Limit of loans.

5. Every society with unlimited liability shall from time to time fix, in a general meeting, the maximum liability it may incur in loans from non-members. The maximum so fixed shall be subject to the sanction of the Registrar, who may at any time reduce it. No society may receive any loan from a non-member which will make its liability to non-members exceed the limit sanctioned by the Registrar.

(The word "loan" in this rule includes "deposit.")

Special general meeting.

6. The Registrar or any person authorised by him may at any time summon a special general meeting of the society in such manner and at such time and place as he may direct. He may also direct what matters shall be discussed by the meeting. Such meeting shall have all the powers and be subject to the same rules as a meeting called according to the bye-laws of the society.

Current registers.

7. Every society shall maintain (a) a register of members, (b) a cash book, (c) a ledger account for each member, (d) a register showing when repayments of loans are due, (e) a register of deposits, and (f) a minute book, in which shall be entered all matters transacted at general meetings or at meetings of the committee, in such forms as the Registrar may prescribe.

Annual statements.

8. The committee of every society, or some officers of the society appointed for this purpose by the committee, shall prepare yearly, in such forms as may be prescribed by the Registrar, (a) an account showing the income and expenditure for the year, (b) a profit and loss account, and (c) a balance sheet. These accounts shall be made up to 31st July and a copy of each account shall be sent to the Registrar within such time as he may direct.

Copies.

9. For the purpose of section 26 of the Act a copy of an entry in the book of a society may be certified by a certificate written at the foot of such copy, declaring that it is a true copy of such entry, and that the book containing the entry is still in the custody of the society, such certificate being dated and signed by the Secretary of the society or other officer approved by the Registrar.

Register of shares.

10. Every society, in which the liability of members is limited by shares, shall keep a register of shares in the form prescribed by the Registrar, and shall send to the Registrar for record within one month from 31st July in each year a list containing the names of the share-holders and the number and amount of the shares taken and paid up by each member.

Disputes.

11. (*a*) In the case of a dispute touching the business of the society between members or past members of the society or persons claiming through a member or past member, or between a member or past member or persons so claiming and the committee or any officer, a reference in writing may be made by any party to the Registrar.

(*b*) The Registrar may on receipt of such reference either decide the dispute himself, or refer it for decision to an arbitrator appointed by him or to several arbitrators of whom one may be appointed by him and one by each of the parties to the dispute.

(*c*) The Registrar, or the arbitrator or arbitrators, shall have power to require the attendance of all parties concerned and of witnesses, and to require the production of all books and documents relating to the matter of the dispute.

(*d*) After hearing the parties to the dispute and examining such documentary evidence as may be produced, the Registrar or arbitrator or arbitrators shall give a decision or award in writing. When more than one arbitrator has been appointed the decision or award shall be according to the finding of the majority.

(*e*) Such decision or award shall be enforceable in the manner provided in sections 20 and 21 of the second schedule to the Code of Civil Procedure, 1908, for the enforcement of awards made in arbitration without the intervention of the court.

Nomination of an heir.

12. Every member of a society shall, at the time of becoming a member, nominate a person to whom, in the event of his death, the monies referred to in section 22 of the Act shall be paid. Such nomination shall be made in the register of members, the signature or thumb mark of the member being attached. A nomination so made may, from time to time, be revoked or modified in the same way.

Limitation of dividend.

13. In no society shall the dividend paid on shares exceed 12 per cent. per annum without the special sanction of the Registrar.

Dissolution.

14. In the case of the dissolution of a society the method of disposing of the reserve fund shall be subject to the approval of the Registrar.

Appeal.

15. Except for the appeal allowed under section 39 of the Act, no appeal shall lie against any order of the Registrar passed in any matter dealt with in the Act or in rules framed under the Act.

Liquidator.

16. (*a*) The Registrar may at any time remove the liquidator appointed under section 42 (1) and appoint another in his place.

(*b*) The liquidator shall submit to the Registrar every two months a report showing the progress made in the liquidation.

(*c*) He shall also submit an order containing the names of members and past members of the society, together with the amount to be realized from each as contribution under clause (*b*), sub-section (2) of section 42, and the grounds on which the contribution has been determined in each case, both as contribution to the assets and to the cost of liquidation.

(*d*) After approval by the Registrar, the order above mentioned may be filed in the civil court having local jurisdiction, to be enforced as laid down in clause (*a*), sub-section (3) of section 42.

(*e*) All funds in charge of the liquidator shall be deposited in the post office savings bank or such other bank as may be approved by the Registrar.

(*f*) After recovery of the dues of the society and the realization of contribution and costs of liquidation from the members and past members, the liquidator shall, after paying the liabilities, wind up the affairs of the society and submit a final report to the Registrar.

(*g*) No appeal shall lie from any order of the liquidator under section 42.

(*h*) The Registrar shall fix the amount of the fee to be paid to the liquidator.

The 22nd September 1914.

V.—The vaccination season will extend from 1st November to 31st March inclusive.

NOTE.—*For vaccinators.*—Although the Vaccination Act does not render liable to punishment the omission to get the children under the age of 6 months vaccinated, yet it is very necessary that children should be vaccinated at an earlier age. Re-vaccination.

Grant and form of certificate of successful vaccination, unfitness for or insusceptibility of vaccination.

FINANCIAL DEPARTMENT.

The 5th October 1914.

No. 1688.—*Notification.*—The following is published for general information:—

No. 806-A.

GOVERNMENT OF INDIA,—FINANCE DEPARTMENT.

ACCOUNTS AND FINANCE.
Bills and Remittances.

Simla, the 25th August 1914.

RESOLUTION.

THE Government of India have had under consideration the revision of the list of cases in which the privilege is granted of remitting money by means of Remittance Transfer Receipts. The list was issued with the Resolution in the Finance Department, No. 1126, dated the 8th March 1890, and since then numerous additions have been made to it from time to time. The present rules on the subject appear in articles 142—144, Chapter 9, of the Civil Account Code, Volume I.

2. The primary object of the system of Remittance Transfer Receipts is to afford an easy method for the remittance of money by Government officers on *bonâ fide* public purposes. Since the issue of the rules in 1890, the ordinary facilities for remitting money have greatly increased, and the Government of India consider that justification no longer exists for extending the privilege to remittances which are of a private or *quasi*-private nature. The working of the system gives rise to an amount of labour in Treasury and Account offices which is in many cases disproportionate to the benefits derived, while its extension beyond its primary scope is open to objection, as being liable to interfere undesirably with the business of bankers and remittance agents.

3. In these circumstances, the Government of India have decided to reduce the existing concessions to the minimum possible, and the list as now curtailed will be found in the revised rules contained in Schedule A attached to this Resolution, which will appear as Articles 142—144 of the Civil Account Code. A list (Schedule B) is also attached showing the cases in which the concession has been withdrawn.

4. The Government of India further consider that the remittance of small sums, whether for public purposes or otherwise, can best be made by money order. The postal commission for remitting sums not exceeding Rs. 15 is not more than the cost of postage on a Remittance Transfer Receipt and its advice, and of the forms, etc., used in connexion therewith. The present minimum limit of Rs. 5 for Remittance Transfer Receipts is, therefore, raised to Rs. 15 for all purposes save the remittance of sepoys' pay.

ORDERED that a copy of the Resolution be forwarded to the several Departments of the Government of India, to the Financial Adviser, Military Finance, to all Local Governments and Administrations, to the Comptroller and Auditor-General, to the Controller of Currency, to all Accountants-General and Comptrollers, to the Examiners and Government Examiners of Railway Accounts, to the Examiner of Accounts, Military Works Services, and to Heads of Departments subordinate to the Finance Department.

Schedule A referred to in the Resolution.

(The existing Articles 142 to 144 in Chapter 9 of the Civil Account Code will now be replaced by the following Articles.)

MONEY LIMIT OF REMITTANCE TRANSFER RECEIPTS.

Article 142.—No transfer receipt should be granted for less than Rs. 15 save when it is required for a sepoy's remittance. And the limit of transfer receipt obtainable for private purposes is, in all cases but that of a sepoy proceeding on leave, the amount of a month's pay and allowances of the remitter.

NOTE.—For rules regarding issue of Remittance Transfer Receipts in payment of contingent charges incurred in another district or in a Presidency or Provincial capital town, see Article 97 and the rule which follows it.

ISSUE OF REMITTANCE TRANSFER RECEIPTS BY TREASURY OFFICERS.

Article. 143.—Remittance Transfer Receipts are issued by Treasury Officers to Officers in the Civil and Military Departments under the conditions specified under Articles 143-A to 143-F.

(1) Officers requiring transfer receipts on public service will submit with the cash a formal application certifying that the bill is wanted exclusively for public purposes and describing the object of the remittance; if the Treasury Officer doubts whether the object is really public, he should state his doubt to the applicant or take the orders of the District Officer. On grant of a transfer receipt its number should be noted on the application, which should then be pasted in a rough file book of such applications arranged in the order of receipt. Questionable grants should be reported to the Accountant-General with a view to the issue of instructions for future guidance.

N. B.—Remittance for purposes of the Local Funds named in annexure B to this chapter and such additional Funds as may be determined from time to time by the Comptroller-General for this purpose are regarded as for *bona fide* public purposes.

A. B. KETTLEWELL,

Officer on Special Duty.

Lahore, the 31*st October* 1914.

NEWS has been received by telegram, dated 29th October, from the British Consul-General at Odessa, to the following effect :—Two or three torpedo boats raided this port before dawn this morning and sunk the Russian gunboat *Donetz* in the harbour. Part of the crew have been killed and wounded. The Russian steamships *Vitiaz, Liazaref* and *Whampao* have been damaged The French ship *Portugal* has been damaged, two of the crew killed and two wounded. Further, shells fired on the town damaged the sugar factory with some loss of life. The Governor of Odessa states that the raiding vessels were Turkish.

News has also been received that the Russian Stationnaire at Constantinople has been sunk and that a naval attack has been made on Theodosia. These attacks on Russia have been made without declaration of war, and with no shadow of provocation or pretext. As these acts of war against Great Britain's Ally are likely to affect seriously the relations of the British and Turkish Government, His Excellency the Viceroy thinks it desirable that the Princes and Peoples of India should be made acquainted without delay with the following facts indicating the consistently aggressive attitude of the Turkish Government, adopted at German instigation, which has culminated in the incidents above reported.

The attitude adopted by the Turkish Government in regard to the German men-of-war *Goeben* and *Breslau* aroused great misgivings in London, Paris and Petrograd. These ships were flying from French and British fleets in the Mediterranean, and took refuge in the Dardanelles, where by the rules of international law under Turkish treaties they should either have been laid up by the Turkish Government, their crews not being repatriated until the close of the war, or made to leave for the open sea at the end of 24 hours. Instead of this the ships were allowed to remain in shelter, and to exercise belligerent rights on a French ship, and then it was suddenly announced that they had been purchased by Turkey, who retained the German crews and dismissed the British Admiral from his executive command of the Turkish fleet. At the same time the passage of the Dardanelles was sown with mines, and all British merchant vessels in those waters or coming through from the Black Sea were held up, first on the pretext that their cargoes were wanted for troops whom Turkey was mobilising and then that the presence of mines rendered it unsafe for vessels to proceed. This was not only a totally unjustifiable interference on the part of a neutral State with the trade of Great Britain, involving both shippers and merchants in heavy loss, but it paralysed the movements of all British shipping in the Black Sea, amounting at the time to 60 or 70 vessels, since not only was it impossible to get through into the Mediterranean, but there was nothing to prevent the *Goeben* and *Breslau* from passing into the Black Sea and destroying all the shipping collected there. The Dardanelles have now been closed in defiance of international treaties.

Another reason for grave disquietude has been the unfriendly treatment by responsible Turkish officials in Baghdad and Mesopotamia of British subjects, and the open incitement of the population by Turkish official circles against Great Britain and her Allies. Notwithstanding all this provocation His Majesty's Government intimated that if Turkish were substituted for German crews on the *Goeben* and *Breslau*, if British merchant shipping were not impeded, and if Turkey would honourably carry out the duties of a neutral State, not only would all these illegalities and hostile acts be overlooked, but that a solemn and written guarantee would be given that Great Britain would scrupulously respect the independence and integrity of the Ottoman Empire. Fur-

thermore, assurances were given that at the conclusion of peace Great Britain would see that no conditions were laid down which would impair that independence and integrity, and that economic conditions of a character favourable to Turkey would be obtained. In spite of these assurances the attitude of Turkey towards Great Britain became increasingly provocative. Evidence continued to reach His Majesty's Government of military preparations in Syria, which could have had no other purpose than to facilitate an attack on Egypt, and of active propaganda carried on by Turkish and German agents among Bedouin Arabs in the regions adjoining the Egyptian frontier The Mosul and Damascus Army Corps have since their mobilization bee. constantly sending troops south preparatory for an invasion of Egypt and the Suez Canal from Akaba and Gaza. A large body of Bedouin Arabs have been called out and armed to assist in this venture, transport has been collected and roads have been prepared up the frontier of Egypt. Mines have been despatched to be laid in the Gulf of Akaba to protect the force from naval attack, and the notorious Sheikh Aziz Shawish, who has been so well known as a firebrand in raising Moslem feeling against Christians, has published and disseminated through Syria and probably India an inflammatory document urging Muhammadans to fight against Great Britain. It is also reported that Dr. Prueffer, who was so long engaged in intrigues in Cairo against the British occupation, and is now attached to the German Embassy at Constantinople, has been busily occupied in Syria trying to incite the people to take part in this conflict. Similar intrigues were set on foot elsewhere, and reports were even received of the despatch of Turkish emissaries to India with the object of stirring up anti-British feelings among Indian Muhammadans. A striking illustration of the extent to which intrigues have been carried on is furnished by the case of a German employé in the Alexandria City Police, who lately returned from leave *viâ* Constantinople, saying that he had been excused from military service. He was arrested on suspicion on landing, and on his person were found a detailed map of the Suez Canal, a sheet of numbered cypher messages concealed in his *tarboosh*, and other compromising correspondence. He had also entrusted to a member of the ship's company two boxes of detonators for exploding dynamite or nitro-glycerine. Further, a steady stream of German officers and men, both naval and military, together with all kinds of war material, has flowed increasingly into Constantinople, which has been converted to all intents and purposes into a German military base. German officers are known to have penetrated far into the interior of the Turkish Empire in the endeavour to stir up agitation among the inhabitants against Great Britain and her Allies. All these movements, it is impossible to doubt, have been carried on with the direct connivance of the Ottoman authorities and can point to only one conclusion.

Finally, the deliberate intention of the Turkish Government to provoke Great Britain to war is shown by the instructions which are known to have been issued by the Turkish Minister of War to the Commandant at Jaffa not later than 18th October on the subject of the measures to be taken by him on the outbreak of hostilities. These instructions not only alluded to His Majesty's Government as the enemy, but they also included an order to break the flagstaff of His Majesty's Consulate and to remove the insignia. Great Britain, the greatest Muhammadan Power in the world, and the faithful and consistent friend of Turkey, whom she has steadfastly helped to maintain her position in Europe, and to recover her stability which was shaken in the Balkan war, would see with the greatest regret that Turkey had been decoyed into ranging herself on the side of England's enemies and into adopting an attitude as unjustified as it would be ungrateful. But it cannot be denied that the present situation shows that there is a chauvinistic element endeavouring to drive Turkey into war with England for the benefit of Germany and of Austria, the secular enemy of the Turkish State.

Lahore, the 2nd November 1914.

In view of outbreak of war between Great Britain and Turkey, which to the regret of Great Britain has been brought about by the ill-advised, unprovoked and deliberate action of the Ottoman Government, His Excellency the Viceroy is authorised by His Majesty's Government to made the following public announcement in regard to the holy places of Arabia, including the holy shrines of Mesopotamia and the port of Jedda, in order that there may be no misunderstanding on the part of His Majesty's most loyal Moslem subjects as to the attitude of His Majesty's Government in this war, in which no question of a religious character is involved.

These holy places and Jedda will be immune from attack or molestation by the British Naval and Military forces so long as there is no interference with pilgrims from India to the holy places and shrines in question.

At the request of His Majesty's Government the Governments of France and Russia have given them similar assurances.

EDUCATION.

The 8th December 1914.

No. 354.—*Notification.*—It is hereby notified for general information that the Government of India will award two State scholarships in 1915 to encourage natives of India to undertake the scientific study of Sanskrit in Europe.

2. Each scholarship will be of the value of £150 a year, and will be tenable for two years.

3. The scholarships will be open to well-qualified students with a genuine taste for Oriental studies and to gentlemen already employed as Professors of Sanskrit or Arabic in India. Some knowledge of English or another European language is essential.

4. The Secretary of State will decide the courses of study of each scholarship-holder and the special conditions to be observed, if necessary, by students who elect to study in continental Europe rather than in England.

5. Scholarship-holders will be provided with a second class passage to Europe, and also with a return passage if they complete the full period of residence or are compelled by sickness to return within that period. They will be required for disciplinary purposes to conform to such rules as the Secretary of State may make in this behalf.

6. Applications should be submitted to the Director of Public Instruction, Punjab, by the 1st February 1915, accompanied by full particulars as to education and other qualifications and certificates of physical fitness from the Civil Surgeon of the district.

7. A copy of the rules for the guidance of Indian Government scholars in England is appended.

RULES FOR INDIAN GOVERNMENT SANSKRIT AND ARABIC SCHOLARS IN EUROPE.

1. The Secretary of State considers it desirable that all Government scholars should avail themselves of the information and advice which the Educational Adviser to Indian students is in a position to give them, and these rules are framed with that end in view. Government scholars, equally with private students, may consult the Educational Adviser upon any question, and will receive from him all possible assistance, and the Secretary of State hopes that they will communicate with the Educational Adviser not only on the occasions when they are directed so to do in these rules, but also in any circumstances of difficulty, and whenever they desire advice or information. Scholars will be regarded as being under the supervision and charge of the Educational Adviser, to whom they should in all cases address any communication they may have to make and to whom also all reports or other communications having reference to scholars should be sent. The Educational Adviser will bring to the notice of the Secretary of State on behalf of any scholar any question requiring his decision, and will communicate to the scholar the orders passed by the Secretary of State.

2. Every scholar should, on reaching England, at once call upon the Educational Adviser* and report his arrival in writing. He should leave his address with the Educational Adviser and intimate to him from time to time all changes therein.

3. Every scholar should, without unnecessary delay, inform the Educational Adviser to which University he intends to proceed, and should at once take steps to enter himself at the College he has finally selected with his approval.

4. Every scholar must, within four weeks of reaching England, submit to the Educational Adviser, for the approval of the Secretary of State, a statement showing the general course of study he proposes to follow; and the course approved must not be changed without the sanction of the Secretary of State.

5. Every scholar must, at the end of each term of residence at a University, submit to the Educational Adviser a certificate from the proper College or University authority, showing that his residence, conduct, and progress in study have been satisfactory during the term.

6. Every scholar must at all times obey such instructions as he may receive from the Secretary of State, either directly or through the Educational Adviser.

7. Subject to a due compliance with the above conditions, the allowance at the rate of £150 a year for two years will be paid quarterly, in advance, by the India Office, commencing from the date of the scholar's reporting his arrival in England. The first payment will be £37 10s. Three months after the date of reporting arrival the amount to the ensuing official quarter day will be paid. Subsequent payments will be made in advance, on or after each official quarter day. The allowance will be reduced by the amount of any other sum which may become payable to him out of the revenues of India in respect of residence at a University or College, during the same period or any part of it, and also by the amount of any University or College bills, of which payment is made by the India Office.

The necessary travelling expenses of scholars by second class, or by third class if no second class be available, will be separately defrayed by the Secretary of State; these should be claimed on forms obtainable from the Educational Adviser.

8. No claim can be admitted for the payment or refund of any expenditure unless the scholar has obtained the *previous* sanction of the Secretary of State for India to such expenditure. (This does not apply to necessary travelling expenses referred to above.)

9. Every scholar will forfeit his scholarship who, not being disabled by illness or prevented by any other cause which the Secretary of State may consider sufficient, fails to complete a residence of two years in England according to the terms and conditions approved by the Secretary of State under Rule 4, or who is guilty of misconduct or disregard of the orders of the Secretary of State. If a scholarship be forfeited, or if it be resigned before completion of its term, or if a scholar on completion of the term of his scholarship declines to return to India when instructed to do so, the scholar will lose his claim to a free return passage to India, and will further become liable, at the discretion of the Secretary of State, to refund the cost of his free passage to England.

10. At the expiration of his scholarship a scholar is provided by the India Office with a free second class passage to India. The scholar is not entitled to make his own passage arrangements and to claim an allowance in lieu from the India Office without the special sanction of the Secretary of State. All communications on this subject are to be made to the Educational Adviser.

11. Should the Secretary of State be advised that the state of a scholar's health is such as to render his return to India desirable, the scholarship may be terminated forthwith and a free return passage granted to the scholar.

The conditions under which the scholarship is tenable and the rules for State technical scholars in England are appended to this notification.

2. Applications should be submitted to the Director of Public Instruction, Punjab, not later than the 5th February, 1915, and applicants should state the particular industry in which they desire to be trained, full particulars as to education, practical experience of the industry, character, physique, etc., being given. The certificate of physical fitness should be signed by the Civil Surgeon of the district. The selected candidate will be required to leave India by the middle of August 1915.

APPENDIX I.

CONDITIONS.

1. The Government of India have decided to allot to the Punjab one State technical scholarship annually to enable Natives of India to pursue a course of study in Great Britain or other Western countries. The object is to qualify them to assist in promoting the improvement of existing native industries and development of new industries, wherever this may be possible.

2. The value of each scholarship has been fixed at £150 a year in addition to fees and travelling expenses ; but if in any particular case this sum is regarded as insufficient, the Government of India will consider proposals for increasing it.

3. The scholarships are tenable in Great Britain, on the Continent of Europe, or in America, and are payable from the date of the scholar's arrival in the country selected for study. Each scholarship will be held for an average period of two years which may be increased or reduced in special cases.

4. The scholarships are tenable by persons who are natives of India within the meaning of section 6 of Statute 33, Victoria, chapter 3. A competent knowledge of English or of the language of the country selected for study will be expected.

5. No age limit has been fixed, but Government may limit the age in particular cases.

6. Candidates will be required to submit certificates of good moral character and physical fitness.

7. The selection of candidates will not be determined by examination ; Government will be guided by consideration of the candidate's capacity, intelligence, previous training, practical interest in the industry selected, and the assurance that he will devote himself to it on his return to India.

8. The scholars while in England or elsewhere will be under the control of the Secretary of State. Progress reports will be required from time to time, and when these are unsatisfactory, the scholars may be required to return to India.

9. After training no scholar will be bound on his return to India to take service with Government or a private firm, but he will be expected to avail himself of any suitable opportunity offered for the useful application of the results of his training.

REVISED RULES.

RULES FOR INDIAN GOVERNMENT TECHNICAL SCHOLARS IN ENGLAND.

1. The Secretary of State considers it desirable that all Government scholars should avail themselves of the information and advice which the Educational Adviser to Indian Students is in a position to give them, and these rules are framed with that end in view. Government scholars, equally with private students,

may consult the Educational Adviser upon any question, and will receive from him all possible assistance, and the Secretary of State hopes that they will communicate with the Educational Adviser, not only on the occasions when they are directed so to do in these rules, but also in any circumstances of difficulty and whenever they desire advice or information. Scholars will be regarded as being under the supervision and charge of the Educational Adviser, to whom they should in all cases address any communication they may have to make, and to whom also all reports or other communications having reference to scholars should be sent. The Educational Adviser will bring to the notice of the Secretary of State on behalf of any scholar any question requiring his decision, and will communicate to the scholar the orders passed by the Secretary of State.

2. Every scholar should, on reaching England, at once call on the Educational Adviser* and report his arrival in writing. He should leave his address with the Educational Adviser and intimate to him from time to time all changes therein.

3. Every scholar should, without unnecessary delay, inform the Educational Adviser to which University, College or other Institution he is about to proceed, and should at once take steps to enter himself at the Institution finally selected with his approval.

4. Every scholar must, within four weeks of reaching England, submit to the Educational Adviser, for the approval of the Secretary of State, a statement, showing the general course of study he proposes to follow to carry out the objects of the scholarship granted to him; and he should during his first College term submit a further statement showing as accurately as possible the details of the total cost of such course of study. This latter statement should in every case be prepared in consultation with the Principal of the College or Institution at which the student is entered.

The course approved must not be changed without the sanction of the Secretary of State.

5. Every scholar must give a written undertaking that he will devote himself exclusively, during the tenure of his scholarship, to the study of the subject for which his scholarship was granted, and that he will return to India on its termination, and there continue to devote himself to the industry which he has studied. Any scholar who neglects his studies, or tries to work for any other profession concurrently, will render himself liable to forfeiture of his scholarship.

6. Every scholar will be required to keep a concise daily diary, to be certified by the authority under whom he is working, and to be submitted at the end of each term through that authority to the Educational Adviser and to the Secretary of State for transmission to India. He must also submit, in the same way, from time to time, full notes of the work on which he is employed.

7. Scholars will be expected to continue their studies during the summer vacations of the Institution where they are working, with the exception of three weeks in each year. Vacation study should, when possible, take the practical work.

8. Applications giving a detailed programme of the vacation work the scholar proposes to do, accompanied with a complete estimate of any extra expenses for fees and travelling, must be sent in through the Principal of the Institution or the Professor under whom the scholar is working before the end of the month of April. Scholars are not entitled to any subsistence allowance in addition to the scholarship allowance during time spent on vacation work, but a scholar, who receives permission to visit the Continent, may, if the Secretary of State for India in Council considers that the circumstances render it desirable, be granted a subsistence allowance calculated at such rate as the Secretary of State may decide.

9. Every scholar must, at the end of each term of residence at a University or College, submit to the Educational Adviser a certificate from the proper University or College authority, showing that his residence, conduct and progress in study have been satisfactory during the term.

10. Every scholar must at all times obey such instructions as he may receive from the Secretary of State either directly or through the Educational Adviser.

11. Subject to a due compliance with the above conditions, the allowance, at the rate of £150 a year for two years, or three years, if so determined, will be paid quarterly, in advance, by the India Office, commencing from the date of the scholar's reporting his arrival in England. The first payment will be £37 10s. Three months after the date of reporting arrival the amount to the ensuing official quarter day will be paid. Subsequent payments will be made in advance, on or after each official quarter day. The allowance will be reduced by the amount of any other sum which may become payable to him out of the revenues of India in respect of residence at a University College or Institution during the same period or any part of it, but not in respect of University or College fees, the cost of which will be separately defrayed by the Secretary of State. Fees for private tuition are not defrayed by the Secretary of State unless previously sanctioned by him.

The necessary travelling expenses of scholars, by second class, or by third class, if no second class be available, will also be separately defrayed by the Secretary of State; these should be claimed on forms obtainable from the Educational Adviser.

Deposits and other charges which are part of the regular fees exacted by the authorities of the educational establishment in which a scholar is working will be paid by the Secretary of State; but charges for books, instruments, hotel bills, and medical attendance must be paid by the scholar himself (any refund of a deposit must be repaid to the Secretary of State).

*The Educational Adviser's office is at 21, Cromwell Road, South Kensington, S. W.

12. No claim can be admitted for the payment or refund of any expenditure unless the scholar has obtained the *previous* sanction of the Secretary of State for India to such expenditure. (This does not apply to necessary travelling expenses referred to above.)

13. Every scholar will forfeit his scholarship who, not being disabled by illness or prevented by any other cause which the Secretary of State may consider sufficient, fails to complete the required term of residence in England according to the terms and conditions approved by the Secretary of State under rule 4, or who is guilty of misconduct or disregard of the instructions of the Secretary of State. If a scholarship be forfeited or if it be resigned before completion of its term, or if a scholar on completion of the term of his scholarship declines to return to India in accordance with the undertaking mentioned in rule 5, the scholar will lose his claim to a free return passage to India, and will further become liable to refund the cost of his free passage to England.

14. At the expiration of his scholarship a scholar is provided by the India Office with a free second class passage to India. The scholar is not entitled to make his own passage arrangements and to claim an allowance in lieu from the India Office without the special sanction of the Secretary of State. All communications on the subject are to be made to the Educational Adviser.

15. Should the Secretary of State be advised that the state of a scholar's health is such as to render his return to India desirable, the scholarship may be terminated forthwith and a free return passage granted to the scholar.

If no objection is made, he will then be given a ballot paper by the polling officer and will mark a (×) on the ballot paper in the space to the right of the name for which the voter wishes to vote and place the paper in the ballot box, which shall be locked and sealed:

Provided that if the voter so wishes, he may request the polling officer to mark the (×) for him.

A voter claiming to vote after another has voted in his name will vote on a green paper known as a "tendered paper." The tendered vote will not be put in the ballot box, but will be kept apart and its acceptance or non-acceptance will be decided by the Deputy Commissioner, whose decision will be final.

The polling officer shall verify the fact that the name given by each voter is shown in the voters register.

XVI.—(1) The Deputy Commissioner may, if he thinks fit, vary the above method of recording votes by permitting all voters, whose names are recorded in register A, to send their votes by hand or by post to the Deputy Commissioner or such other officer, as may be appointed by him for the purpose, by such date and within such time as may be fixed.

Exception to general mode of election.

(2) Voters who are thus exempted from personal attendance will be supplied with a ballot paper in the form prescribed in rule XV and will vote by making a mark (×) in the space to the right of the name for which the voter wishes to vote:

Provided that if the voter wishes, he may request any person to mark the (×) for him.

(3) Such ballot paper will then be signed at foot by the voter, or if he is illiterate, his thumb mark will be affixed thereto and the ballot paper will be returned within the period prescribed under clause (1) to the Deputy Commissioner or such other officer as may be appointed.

(4) Ballot papers bearing the following defects will be rejected :—

(*a*) Illegible signature or one not easily identifiable, or thumb mark not easily identifiable.

(*b*) Uncertainty as to the candidate to whom the vote is given.

(*c*) The allotment of more than one vote.

Candidates entitled to seats in the polling booth.

XVII.—Every candidate will be allotted one place in the polling booth which may be occupied by the candidate himself or by his duly authorized agent.

Objections to vote.

XVIII.—(1) No objection will be allowed at a poll to the vote of any registered voter, except on the ground of personation, and such an objection may be made only by the polling officer or by one of the candidates or his agent at the time the blank ballot paper is delivered to the candidate by the polling officer.

(2) If the polling officer himself objects, he shall at once have the voter's thumb mark taken in his presence. This mark will be compared with the thumb mark on the voter's application. If the two are found to correspond, the voter will be allowed to record his vote. If there is a variation, the vote will be disallowed and the voter will be at once prosecuted for committing a corrupt practice.

(3) If objection be made by one of the candidates or his agent, the polling officer will require the objector to deposit five rupees for each objection made. The polling officer will then proceed as laid down in clause (2) of this section. If the objcetion is allowed, the deposit for that objection will be refunded; if it is disallowed, the deposit will be forfeited to the municipal committee.
